

PRACTICE FEE RECOVERY POLICY FOR SILVA INSOLVENCY & RECOVERY SERVICES LIMITED

Introduction

The insolvency legislation was changed in October 2015, with one or two exceptions, for insolvency appointments made from that time. This sheet explains how we intend to apply the alternative fee bases allowed by the legislation when acting as office holder in insolvency appointments. The legislation allows different fee bases to be used for different tasks within the same appointment. The fee basis, or combination of bases, set for a particular appointment is/are subject to approval, generally by a committee if one is appointed by the creditors, failing which the creditors in general meeting, or the Court.

Further information about creditors' rights can be obtained by visiting the creditors' information micro-site published by the Association of Business Recovery Professionals (R3) at:

<http://www.creditorinsolvencyguide.co.uk/>.

Details about how an office holder's fees may be approved for each case type are available in a series of guides issued with Statement of Insolvency Practice 9 (SIP 9) and can be accessed at:

<https://www.r3.org.uk/what-we-do/publications/professional/statements-of-insolvency-practice>

Alternatively a hard copy may be requested from Jeremy Wood of Silva Insolvency & Recovery Services Ltd. Please note that we have provided further details in this policy document.

Once the basis of the office holder's remuneration has been approved, a periodic report will be provided to any committee and also to each creditor. The report will provide a breakdown of the remuneration drawn. If approval has been obtained for remuneration on a time costs basis, i.e. by reference to time properly spent by members of staff of the practice at our standard chargeout rates, the time incurred will also be disclosed, whether drawn or not, together with the average, or "blended" rates of such costs. Under the legislation, any such report must disclose how creditors can seek further information and challenge the basis on which the fees are calculated and the level of fees drawn in the period of the report. Once the time to challenge the office holder's remuneration for the period reported on has elapsed, then that remuneration cannot subsequently be challenged.

Under some old legislation, which still applies for insolvency appointments commenced before 6 April 2010, there is no equivalent mechanism for fees to be challenged.

Silva Insolvency and Recovery Services Limited [Silva] has at this stage only a single employee. As such all services are currently provided by that employee only.

Time cost basis

When charging fees on a time costs basis we use chargeout rates appropriate to the skills and experience of a member of staff and the work that they perform. The chargeout rate is combined with the amount of time that they work on each case, recorded in 6 minute units with supporting narrative to explain the work undertaken.

Each assignment contains tasks which demand a range of skills. Those tasks which require most skills, knowledge and experience are graded '1'. Professional activities which require less experience are graded '2' and non-professional work is graded '3'. The sole staff member will do all tasks but chargeout rates will vary depending on the grade of the work being conducted. [Should new members of staff be retained to work on Silva cases their work will be graded and charged in a way that is consistent with the above policy.]

Chargeout Rates

Grade	Grade of staff	Example activities	Current rate (from 1/1/2022) £/hour	Previous rate (from 1/1/2021) £/hour
1	Insolvency Practitioner	advising, meetings, decision making	285	275
2	Professional	calculations, data input, cashiering	150	145
3	Non-professional	secretarial	55	55

Where necessary and appropriate, members of staff from other departments of the practice will undertake work on a case. They will be charged at their normal chargeout rate for undertaking such work.)

These chargeout rates charged are reviewed on 1 January each year and are adjusted to take account of inflation and the firm's overheads.

Time spent on casework is recorded directly to the relevant case using a computerised time recording system and the nature of the work undertaken is recorded at that time. The work is generally recorded under the following categories:

- Administration and planning
- Investigations
- Realisation of assets
- Creditors
- Trading
- Case specific matters

In cases where we were appointed prior to 1 October 2015, most of our fees were recovered on a time costs basis and appropriate authority was obtained from the creditors or the committee as set down in the legislation.

The legislation changed on 1 October 2015 and on new appointments we may seek time costs for all categories of work.

When we seek time costs approval we have to set out a fees estimate. That estimate acts as a cap on our time costs so that we cannot draw fees of more than the estimated time costs without further approval from those who approved our fees. When seeking approval for our fees, we will disclose the work that we intend to undertake, the hourly rates we intend to charge for each part of the work, and the time that we think each part of the work will take. We will summarise that

information in an average or “blended” rate for all of the work being carried out within the estimate. We will also say whether we anticipate needing to seek approval to exceed the estimate and, if so, the reasons that we think that may be necessary.

The disclosure that we make should include sufficient information about the insolvency appointment to enable you to understand how the proposed fee reflects the complexity (or otherwise) of the case, any responsibility of an exceptional kind falling on the office holder, the effectiveness with which the office holder has carried out their functions, and the value and nature of the property with which the office holder has to deal.

If we subsequently need to seek authority to draw fees in excess of the estimate, we will say why we have exceeded, or are likely to exceed the estimate; any additional work undertaken, or proposed to be undertaken; the hourly rates proposed for each part of the work; and the time that the additional work is expected to take. As with the original estimate, we will say whether we anticipate needing further approval and, if so, why we think it may be necessary to seek further approval.

Percentage basis

The legislation allows fees to be charged on a percentage of the value of the property with which the office holder has to deal (realisations and/or distributions). Different percentages can be used for different assets or types of assets. In cases where we were appointed prior to 1 October 2015, most of our fees were recovered on a time costs basis and appropriate authority was obtained from the creditors or the committee as set down in the legislation. The legislation changed on 1 October 2015 and we now seek remuneration on a percentage basis more often. A report accompanying any fee request will set out the potential assets in the case, the remuneration percentage proposed for any realisations and the work covered by that remuneration, as well as the expenses that will be, or are likely to be, incurred. Expenses can be incurred without approval, but must be disclosed to help put the remuneration request into context.

The percentage approved in respect of realisations will be charged against the assets realised, and where approval is obtained on a mixture of bases, any fixed fee and time costs will then be charged against the funds remaining in the liquidation after the realisation percentage has been deducted.

The disclosure that we make should include sufficient information about the insolvency appointment to enable you to understand how the proposed fee reflects the complexity (or otherwise) of the case, any responsibility of an exceptional kind falling on the office holder, the effectiveness with which the office holder has carried out their functions, and the value and nature of the property with which the office holder has to deal.

If the basis of remuneration has been approved on a percentage basis then an increase in the amount of the percentage applied can only be approved by the committee or creditors (depending upon who approved the basis of remuneration) in cases where there has been a material and substantial change in the circumstances that were taken into account when fixing the original level of the percentage applied. If there has not been a material and substantial change in the circumstances then an increase can only be approved by the Court.

Fixed fee

The legislation allows fees to be charged at a set amount. Different set amounts can be used for different tasks. In cases where we were appointed prior to 1 October 2015, most of our fees were

recovered on a time costs basis and appropriate authority was obtained from the creditors or the committee as set down in the legislation. The legislation changed on 1 October 2015 and we now seek remuneration on a fixed fee basis more often. A report accompanying any fee request will set out the set fee that we proposed to charge and the work covered by that remuneration, as well as the expenses that will be, or are likely to be, incurred. Expenses can be incurred without approval, but must be disclosed to help put the remuneration request into context.

The disclosure that we make should include sufficient information about the insolvency appointment to enable you to understand how the proposed fee reflects the complexity (or otherwise) of the case, any responsibility of an exceptional kind falling on the office holder, the effectiveness with which the office holder has carried out their functions, and the value and nature of the property with which the office holder has to deal.

If the basis of remuneration has been approved on a fixed fee basis then an increase in the amount of the fixed fee can only be approved by the committee or creditors (depending upon who approved the basis of remuneration) in cases where there has been a material and substantial change in the circumstances that were taken into account when fixing the original level of the fixed fee. If there has not been a material and substantial change in the circumstances then an increase can only be approved by the Court.

Members' voluntary liquidations and Voluntary Arrangements

The legislation changes that took effect from 1 October 2015 did not apply to members' voluntary liquidations (MVL), Company Voluntary Arrangements (CVA) or Individual Voluntary Arrangements (IVA). In MVLs, the company's members set the fee basis, often as a fixed fee. In CVAs and IVAs, the fee basis is set out in the proposals and creditors approve the fee basis when they approve the arrangement.

All bases

Silva Insolvency & Recovery Services Ltd is not currently registered for VAT but may become so shortly. If it does so, the officeholder's remuneration invoiced to the insolvent estate will be subject to VAT at the prevailing rate (with the exception of Individual Voluntary Arrangements and Company Voluntary Arrangements which are VAT exempt).

Agent's Costs

Charged at cost based upon the charge made by the Agent instructed, the term Agent includes:

- Solicitors/Legal Advisors
- Auctioneers/Valuers
- Accountants
- Quantity Surveyors
- Estate Agents
- Other Specialist Advisors

In new appointments made after 1 October 2015, the office holder will provide details of expenses to be incurred, or likely to be incurred, when seeking fee approval. When reporting to the committee and creditors during the course of the insolvency appointment the actual expenses incurred will be compared with the original estimate provided.

Disbursements

In accordance with SIP 9 the basis of disbursement allocation in respect of disbursements incurred by the Office Holder in connection with the administration of the estate must be fully disclosed to creditors. Disbursements are categorised as either Category 1 or Category 2.

Category 1 expenses are directly referable to an invoice from a third party, which is either in the name of the estate or Silva Insolvency & Recovery Services Ltd; in the case of the latter, the invoice makes reference to, and therefore can be directly attributed to, the estate. These disbursements are recoverable in full from the estate without the prior approval of creditors either by a direct payment from the estate or, where the firm has made payment on behalf of the estate, by a recharge of the amount invoiced by the third party. Examples of category 1 disbursements are statutory advertising, external meeting room hire, external storage, specific bond insurance and Company search fees.

Category 2 expenses are incurred by the firm and recharged to the estate; they are not attributed to the estate by a third party invoice and/or they may include a profit element. These disbursements are recoverable in full from the estate, subject to the basis of the disbursement charge being approved by creditors in advance. Examples of category 2 disbursements are photocopying, internal room hire, internal storage and mileage. It is proposed that the following Category 2 disbursements are recovered:

Room Hire	£6/hour
Mileage	45p per mile
Storage	£5 per box per annum
Photocopying	5p per sheet
Postage (adjusted annually in March)	70p per letter first class; 61p per letter second class; 140p per large letter first class
